

KS JEWELRY

2015 KS-JEWELLERY.COM

Introduction

Dear Customers and fashion lovers,

The KS Family welcomes you to its collection of Jewelry. We hope you will enjoy browsing our collection as much we did enjoy creating them.

We take this opportunity to brief you about our products, inspirations and the quality of the material we use.

While most of our collections are made of 925 silver (tested and stamped as per EU regulations), we also do produce a large range of 316L Stainless Steel and Brass jewelry. Having our own factory allows us to adapt to any of your wishes and have them come true whether it is a change of shape, material, color or fully custom made products. Our teams are here to serve your every jewelry needs!

We, at KS, value the quality of our products as well as your satisfaction, which is why we only use the highest quality CZ and Rhinestones in our products.

Finally, we would like to invite you to visit our office and factory to attest of the professionalism of our teams and production units.

Feel free to let us know what you think of our products and, should you have any questions, our sales team will happily welcome you and answer to the best of their respective knowledge!

We thank you for remaining loyal to KS and wish you to have a pleasant reading,

The KS team.
